On a dark desert highway There she stood in the doorway --- Her mind is Tiffany twisted So I called up the Captain --- Mirrors on the ceiling Last thing I remember, I was	cool wind in my hair I heard the mission bell --- She got the Mercedes Benz Please bring me my wine --- pink champagne on ice running for the door	warm smell of colitas I was thinkin to myself this could be --- She's got a lot a pretty pretty boys We haven't had that spirit here since --- She said we are all prisoners here had to find my passage back to the	rising up thru the air heaven or this could be hell --- that she calls friends since 1969 --- of our own device place I was before

Up ahead in the distance Then she lit up a candle --- How they dance in the courtyard And still those voices are calling from --- And in the master chamber Relax, said the nightman, we are	I saw a shimmering light she showed my the way --- sweet summer sweat far away --- they gather for their feast programmed to receive	my head grew heavy my eyes grew dim there were voices down the corridor --- some dance to remember wake you up in the middle of the night --- they stab it with their steely knives but you can check out any time you like	I had to stop for the night I thought I heard them say --- some dance to forget just to hear them say --- just can't kill the beast but you can never leave
